Subject: **Concentrated Animal Feeding Operation (CAFO) Permit Application Deadline**  
**Previous Permit Tracking No. TNA000023**  
**Holt Dairy Farm**  
**Sweetwater, Monroe County, Tennessee**

Dear Mr. Holt:

The Division of Water Pollution Control (division) issued the General State Operating Permit for Concentrated Animal Feeding Operations (CAFOs) that do not discharge and are not designed, constructed, operated or maintained such that a discharge could occur, Permit Number SOPC00000, on May 28, 2010. Section 2.1.1 of the permit allowed existing CAFOs until July 1, 2011, to submit an application for coverage under the permit.

Per our records your facility was previously covered under the General NPDES Permit for Concentrated Animal Feeding Operations, Permit Number TNA000000, which expired on August 5, 2009. As such, you are required to submit a Notice of Intent (NOI) for coverage under the new CAFO general permit by July 1, 2011. You are receiving this letter because you have not yet submitted the NOI. Facilities that fail to submit an NOI by July 1, 2011, will be considered to be operating without a permit. You must complete and submit the NOI that is enclosed with this letter by the July 1, 2011, deadline. The division will allow submittal of the NOI only at this time and is giving you an additional three months to update and submit your nutrient management plan (NMP), which is ordinarily required to be submitted along with the NOI. Your updated NMP must be submitted by October 1, 2011. Facilities that fail to submit an NMP by October 1, 2011, will be considered to be operating without authorization. Facilities that fail to meet either deadline may be subject to enforcement action.

As stated above, a copy of the NOI is enclosed with this letter. If you need a copy of the general permit please contact the division at one of the two phone numbers listed below. Your NOI and NMP must be submitted to both the division and to the Tennessee Department of Agriculture (TDA). Original documents should be sent to Water Pollution Control and a copy should be sent to TDA, at the addresses listed below:
